

Mobile Device Management Made Easy

Mobile Device Management

Our comprehensive mobile device management services reduce costs associated with supporting an array of mobile devices. We have the ability to separate personal and company data while maintaining full control of policies and device configurations. We work with you to define your company's mobile strategy and ensure the policies we create increase both productivity and employee satisfaction.

Deployment & Configuration

- Set device restrictions on features, applications and content ratings
- Detect and restrict jail broken and rooted devices
- Deploy real-time compliance rules
- Geo-fencing rules enforce location-based compliance

Management Services

- Managed over-the-air configuration of email, calendar, contacts Wi-Fi and VPN profiles
- Distribute and manage company approved applications
- Selectively wipe corporate data leaving personal data intact
- Remotely locate, lock and wipe lost or stolen devices
- Decommission devices by removing company data
